CITY CAPS

The perfect software solution
for your parking business.

City CAPS, the new customised business software solution from DESIGNA. Devised to meet the needs of your sector, it includes the specific software features that are required in your area of activity. Scaling up is easy when, for example, you wish to expand your range of services or optimise your workflow. City CAPS is available in three different feature levels. The choice is yours.

CITY CAPS

PRO

- **Ticket Tracking**
Detailed ticket information helps avoiding manual gate openings.
- **Debit Card (Value Card) Balance**
Transparency of debit card values for end-of-year reports.
- **Park Check Report (also for MCU)**
Cost center capability and flexible analysis possibilities.
- **MPS/APS-Shift Report**
Detailed cashflow reporting per individual paystation.
- **Season Parker Report**
Enables revision of Season Parker usage to easily identify misuse.
- **Value Check Processing (Chaser)**
Possibility to deal with chaser tickets (vouchers) value-based by having individual reports for used ones.
- **Time Check Processing (Chaser)**
Possibility to deal with chaser tickets (vouchers) time-based by having individual reports for used ones.

CITY CAPS

PRIME

- **Early Bird PLUS**
Optimized utilisation of car park through time-adjusted tariff structures.
- **Software License / Multi-Slip Mode / Software Escrow**
Accepts more notes than only one per payment.
- **Charging Station Release**
eCharging pole management.
- **Cash and Tickets' Inventory Report**
A must have! Make your service most efficient due to precise analytics where and what to care.
- **Promotional Codes**
Digital parking permission – sending out e-mails with parking permission instead of coding tickets and hand these over. Less handlings costs, maximum range.
- **Lost Revenue Report**
Transparent presentation of lost revenue. Reduces manual gate opening.
- **QR-Code Discount / Tariff Switching**

CITY CAPS

PREMIUM

- **Online Contract Parker**
Less operational efforts. No need to deal with manage master data – customer can select items like from a webshop!
- **Coupons**
Tool to enhance customer loyalty.
- **Web Validation Manager incl. Report**
Flexible location instead of having a fixed installed unit.
- **ADAC Car Park Occupancy Transfer**
Show car park occupancy online – like embedded in web pages.
- **Traffic Jam Detection**
Avoids raising barriers due to traffic jam at the exit and due to this secures your turnover.
- **DESIGNA eCademy**
Well informed employees are able to make the most out of your system. Online Training Platform speeds up even new employees due to available tutorials (how to deal with consumables).
